

# TESTIMONIALS

**“** If anybody wants to see their real game, they definitely need to get a PPM™. Who doesn't want to see their real game or their true potential? PPM™ works and it works immediately. **”**

**Shaquille O'Neal**

**“** This is the best product, and only product that I have used, that produced results immediately! **”**

**Terrell Owens**

**“** Plain and simple, the PPM™ is the most important piece of equipment in my golf bag! I will never play without it again. **”**

**Scott McCarron**

**“** If you believe in being aligned, you'll love this! I've never had an aid that I thought could help my game, until I tried the PPM™. The PPM™ has aligned my mouth perfectly helping me on and off the course with my sleep, TMJ and golf. **”**

**Steve Elkington**

**“** In Ski Racing, when every second counts, PPM has helped me to achieve my fastest times on the slope **”**

**Bode Miller**

# TESTIMONIALS

*“ Just thought I’d send you a quick note regarding the list of professional athletes using the PPM that you recently sent out. Wow! It keeps getting bigger and better. I doubt if any sports related manufacture has brought so many athletes on board in such a short amount of time. You guys are doing great! ”*

**Dr. Dennis Stuart DDS - San Francisco California**

*“ Being a Pure Power Mouthguard (PPM) dentist for me has been great to say the least. Thanks to Dr. Anil Makkar, more doors have opened more than I could have imagined. It has afforded me more opportunities to reach out to a much greater audience to explain what I do as a neuromuscular dentist changing lives every day. People may not be able to comprehend the technical aspects of NMD, but they sure understand results and increased performance, whether it be sports or everyday activities! If you want to make a change in your practice, your patients, and in your community, don’t wait to become a PPM dentist! You owe it to yourself! Do it now! ”*

**Art Kwan**

*“ Much like neuromuscular dentistry has allowed me to help patients in a more therapeutic, comprehensive approach, the PPM allows one to achieve peak physical performance for whatever sports they participate in. The increase in performance is so significant that reaction is overwhelmingly positive. Most importantly, it allows us to explain the principles of neuromuscular dentistry to a whole new section of the public ”*

**Russell Marson, Atlanta Georgia**
